SUMMARY

Front-end developer with 5+ years of experience designing, developing, and deploying responsive web and mobile interfaces with React, Next.js, TypeScript, JavaScript, and React Native.

Strong at translating Figma designs into maintainable component systems, integrating REST APIs, improving accessibility, and shipping production-ready experiences across desktop and mobile.

EXPERIENCE

Front-End Developer

Wallo – Gamer's Lair
Calgary, AB / Remote
September 2023 – August 2025

REACT NATIVE

- Developed scalable mobile application features in React Native for iOS and Android.
- Designed and implemented authentication, account management, password recovery, and deep-link navigation flows.
- Built reusable UI components to improve consistency, maintainability, and delivery speed.
- Integrated REST APIs with loading states, validation, error handling, and real-time data needs.
- Supported QA, debugging, peer review, release testing, and Apple App Store deployment activities.

Front-End Web Developer & Digital Marketing Intern

Mode Law
Toronto, ON
May 2026 – June 2026

VERCEL / SEO

- Designed and developed a responsive nine-page corporate website with semantic HTML, CSS, and JavaScript.
- Migrated the production website from Webflow to Vercel with DNS configuration through Hostinger and zero downtime.
- Improved technical SEO, metadata, content structure, performance, and cross-device accessibility.
- Worked directly with stakeholders to gather requirements, iterate on feedback, and deliver a production-ready site.

Front-End Web Developer

CENTRA NL
St. John's, NL
March 2026 – May 2026

COMMUNITY PLATFORM

- Designed and developed a responsive organizational website supporting artists, entrepreneurs, and community initiatives.
- Built a searchable directory with 68+ business and artist profiles, categorization, and tagging.
- Improved navigation, information architecture, reusable layouts, and brand consistency across the platform.

SELECTED PROJECTS

Gameslayer Challenge App

Mobile Product Design · Gaming · Figma

Designed a competitive gaming mobile concept where Xbox and PlayStation players can challenge friends, choose titles, set entry amounts, and host winner-takes-all tournaments. Comparable product space: 1v1Me-style competitive gaming challenges.

Canada Business Lead Generator

Python · Google Maps API · Data Processing

Built a Python-based lead generation tool using Google Maps data collection, data cleaning, business classification, and dashboard-style segmentation to reduce manual prospecting time.

TECHNICAL SKILLS

Front-End: HTML5, CSS3, JavaScript, TypeScript, React.js, Next.js, React Native

UI & Design: Tailwind CSS, CSS Grid, Flexbox, Figma, Adobe XD, Photoshop, Illustrator, Design Systems

Application: Node.js, Express.js, REST APIs, Fetch API, Axios, JSON, React Hooks, Context API, Redux Toolkit

Quality: WCAG Accessibility, SEO, Core Web Vitals, Lighthouse, Lazy Loading, Code Splitting

Delivery: Git, GitHub, GitHub Actions, Vercel, Netlify, Hostinger, CI/CD, DNS Management

Process: Agile, Scrum, TDD, Code Reviews, SDLC, UI/UX Best Practices

EDUCATION & CERTIFICATIONS

Memorial University of Newfoundland: Bachelor of Arts, Sociology; Minor in Business Administration

Foundations of Product Design — Google (Coursera), 2024 · Fundamentals of Web Development — IBM SkillsBuild, 2026 · Fundamentals of Project Management — IBM SkillsBuild, 2026
